Spring
Production Sale

Friday, April 10, 2026 · 12:30 p.m.
at the Ranch, Morgan, TX

Jeff Chaffin, Ranch Manager

Joe Walker & Joey Walker, Owners

Ranch Office: (254) 635-4444 | Ranch Fax: (254) 635-7201

P. O. Box 9 | Morgan, Texas 76671

www.w4ranch.com

WELCOME

Dear Friends and Cattlemen,

On behalf of the Walker family and our entire crew, I'm proud to invite you to the ranch for our upcoming sale. The 70 bulls in this year's offering represent our herd bull battery exceptionally well—stout, functional cattle built to hold up and add profit to your program.

The female offering is the deepest we have ever presented. These heifers are maternal, deep-ribbed, and feminine—an impressive set with the kind of quality cattlemen appreciate. The registered females are bred to L1 calving-ease bulls and represent a tremendous opportunity, with progeny that will demand attention as future replacement females.

We are also offering registered heifers bred to low birth weight Angus bulls. These calves will command top dollar—whether marketed as steer calves or retained as highly desirable Baldy replacement females.

All of the cattle are located here at the sale facility and will be available for viewing by appointment prior to sale week and throughout the week leading up to the sale.

Please feel free to reach out to me or any member of our crew if you have questions regarding the cattle. Once again, we are proud to partner with Live-Ag™ as our internet marketing platform.

A sincere thank you to our loyal customers. We appreciate your continued support and hope this offering meets—and exceeds—your expectations.

Lunch will be served prior to the sale at 11:00 a.m., with the sale beginning promptly at 12:30 p.m. on April 10, 2026. Lunch is graciously sponsored once again by Mr. Mike Jones and Bar None Country Store.

We look forward to seeing you at the ranch.

Sincerely,

Jeff Chaffin, Manager
254/396-2785

We are proud to present our
2026 Spring Cattle for your evaluation!

Joe Walker

Kim and Joey Walker with
Sydney and Tripp

FRIDAY, APRIL 10, 2026

12:30 p.m. CST ... at the ranch, Morgan, Texas

Sale Location

W4 Ranch-Steele Creek Headquarters, located on FM 927 between Lakeside Village and Morgan in Bosque County, Texas or 4 miles east of Morgan from Hwy. 174.

Accommodations

Hillsboro, Texas, 29 miles from the ranch

Sale Headquarters: Ramada Inn
(254) 582-3493 or (877) 200-3392

Other lodging at

Comfort Inn (254) 582-3338
Holiday Inn Express, (254) 582-0220

Also in Clifton, 20 miles from ranch

Best Western, (254) 675-8999

Air Travel

Dallas/Fort Worth Airport is serviced by most major airlines and is 90 miles from ranch. Waco Airport is located just 40 minutes from ranch. We have a private FAA approved airstrip located on the ranch that can accommodate most all private planes. W4 Ranch airstrip's new location identifier for the landing facility is 84TE.

A 75' wide x 4,500' long asphalt runway.

Call (254) 635-4444 for shuttle to sale barn.

Sale Day Phone

(254) 635-4444 – Phone bids welcomed

Weekly Livestock Reporter Ralph Means
Special Assignment Clint Minchew

Terms of Sale

Terms of sale are CASH, to be paid in full at the conclusion of the sale. We will be glad to consider special terms if arrangements are made prior to the sale date. Contact Tom Johnson.

Sale Conditions

Each animal will be sold to the highest bidder with the auctioneer settling any disputes as to bids. Each animal will become the property of the buyer as soon as sold.

Guarantee

All cattle are guaranteed to be breeders; all females having been examined safe in calf will be considered as proven breeders. Any bull subsequently found to be a non-breeder may be returned in good condition and with our permission within six months of the sale date. We reserve the right to try any reported non-breeder for six months and if we cannot confirm the animal as a breeder will refund the purchase price.

Herd Health

Individual health certificates for interstate shipment will be furnished on all sale cattle. All test-age cattle will have been tested negative for Brucellosis. All the cattle have been vaccinated for 7-Way Blackleg, Lepto and wormed. Mark Jackson, DVM serves as our herd veterinarian.

EPDs

EPDs in this catalog were obtained on March 9, 2025.

Note

All persons attending the sale do so at their own risk. W4 Ranch nor any person connected with the sale assumes liability, legal or otherwise, for any accidents which may occur.

THE OFFERING

70 Registered Horned and Polled Bulls

All two-year-olds

85 Registered Fall Bred Hereford Heifers

Bred to Hereford Bulls

40 Registered Fall Bred Hereford Heifers

Bred to Angus Bulls

35 Commercial Hereford and Baldy Fall Bred Females

Bred to Angus Bulls

**Sale will be broadcast online
at [Live-Ag.com](https://www.live-ag.com)**

See page 7 for bidding information.

Schedule of Events

FRIDAY, APRIL 10, 2026

8:00 a.m. – Coffee, donuts and viewing of cattle

11:00 a.m. – Lunch served

12:30 p.m. – Spring Production Sale

 **BAR NONE** 
COUNTRY STORE

**WHY IS THE PURINA® ACCURATION® AND
PURINA® WIND & RAIN® MINERAL THE RIGHT
FIT FOR MY OPERATION?**

One size doesn't fit all, especially in the cattle world.

That's why Purina® Accuration® and Purina® Wind & Rain® Mineral give cow/calf producers flexibility to select from high-quality nutrition options to create a whole herd nutrition program that best fits their needs. Purina® sets the foundation for success with elite, complete nutrition programs. Producers can also choose to enter additional value-added programs that are amplified by the research-based and time-tested approach of Purina Animal Nutrition®.

**WORK WITH BAR NONE COUNTRY STORE
TO CREATE A TAILORED PLAN TO MEET
YOUR OPERATION'S GOALS.**

PERFORMANCE & CARCASS – EPD INFORMATION

Calving Ease – Direct (CE)

CE EPD is based on calving ease scores and birth weights and is measured on a percentage. CE EPD indicates the influence of the sire on calving ease in females calving at 2 years of age. For example, if sire A has a CE EPD of 6 and sire B has a CE EPD of -2, then you would expect on average if comparably mated, sire A's calves would be born with an 8% more likely chance of being unassisted when compared to sire B's calves.

Birth Weight (BW)

BW EPD is an indicator trait for calving ease and is measured in pounds. For example, if sire A has a BW EPD of 3.6 and sire B has a BW EPD of 0.6, then you would expect on average if comparably mated, sire A's calves would come 3 lb. heavier at birth when compared to sire B's calves. Larger BW EPDs usually, but not always, indicate more calving difficulty. The figure in parentheses found after each EPD is an accuracy value or reliability of the EPD.

Weaning Weight (WW)

WW EPD is an estimate of pre-weaning growth that is measured in pounds. For example, if sire A has a WW EPD of 60 and sire B has a WW EPD of 40, then you would expect on average if comparably mated, sire A's calves would weigh 20 lb. heavier at weaning when compared to sire B's calves.

Yearling Weight (YW)

YW EPD is an estimate of post-weaning growth that is measured in pounds. For example, if sire A has a YW EPD of 100 and sire B has a YW EPD of 70, then you would expect on average if comparably mated, sire A's calves would weigh 30 lb. heavier at a year of age when compared to sire B's calves.

Scrotal Circumference (YSC)

Measured in centimeters and adjusted to 365 days of age, SC EPD is the best estimate of fertility. It is related to the bull's own semen quantity and quality, and is also associated with age at puberty of sons and daughters. Larger SC EPDs suggest younger age at puberty. Yearling sons of a sire with a .7 SC EPD should have yearling scrotal circumference measurements that average 0.7 centimeters (cm) larger than progeny by a bull with an EPD of 0.0 cm. In the Hereford genetic analysis, a multiple-trait model was used for scrotal circumference. Weaning weight was used as a predictor variable to increase the prediction accuracy of SC EPDs. Therefore, an animal with a weaning weight EPD should also have a SC EPD.

Maternal Milk (MM)

The milking ability of a sire's daughters is expressed in pounds of calf weaned. It predicts the difference in average weaning weights of sires' daughters' progeny due to milking ability. Daughters of the sire with a +14 MM EPD should produce progeny with 205-day weights averaging 24 lb. more (as a result of greater milk production) than daughters of a bull with a MM EPD of -10 lb. (14 minus -10.0 = 24 lb.). This difference in weaning weight is due to total milk production during the entire lactation.

Teat Size (TEAT)

Scores range from 9 (very small) to 1 (very large, balloon shaped) and are subjective assessments of the teat length and circumference. Oversized teats are difficult for newborn calves to nurse, and the calf may not receive adequate colostrum. This could lead to a higher incidence of scours or decreased immunity levels in the newborn calf.

TEAT EPDs are reported on the scoring scale. Differences in sire EPDs predict the difference expected in the sires' daughters' udder characteristics when managed in the same environment. For example, if sire A has a teat size EPD of 0.4, and sire B has a teat size EPD of -0.1, the difference in the values is 0.5, or one-half of a score. If daughters of sires A and B are raised and managed in the same environment, you would expect half a score smaller teat size in daughters of sire A, compared to sire B.

Ribeye Area (REA)

REA EPDs reflect differences in an adjusted 365-day ribeye area measurement based on carcass measurements of harvested cattle. Sires with relatively higher REA EPDs are expected to produce better-muscled and higher percentage yielding slaughter progeny than will sires with lower REA EPDs. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Marbling (MARB)

MARB EPDs reflect differences in an adjusted 365-day marbling score (intramuscular fat, [IMF]) based on carcass measurements of harvested cattle. Breeding cattle with higher MARB EPDs should produce slaughter progeny with a higher degree of IMF and therefore higher quality grades. Ultrasound measurements are also incorporated into this trait and have been shown to be highly correlated with the performance of slaughter progeny. All data is expressed on a carcass scale.

Baldy Maternal Index (BMIS)

The Baldy Maternal Index is a maternally focused index that is based on a production system that uses Hereford x Angus cross cows. Progeny of these cows are directed towards Certified Hereford Beef. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability from finishing of non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep the harvested progeny successful for CHB. This index is geared to identify Hereford bulls that will be profitable when used in a rotational cross with mature commercial Angus cows.

Brahman Influence Index (BIIS)

The Brahman Influence Index is a maternally focused index that is based on a production system that uses Brahman x Hereford cross cows. Progeny of these cows are directed towards a commodity beef market since Certified Hereford Beef does not accept Brahman influenced cattle. This index has significant weight on Sustained Cow Fertility, which predicts fertility and longevity of females. There is a slightly positive weight on Weaning Weight, Mature Cow Weight and Milk which accounts for enough growth but ensures females do not increase inputs. There is some negative emphasis on Dry Matter Intake, but a positive weighting on Carcass Weight which is anticipated to provide profitability in finishing non-replacement females and castrated males. Marbling and Rib-eye Area are also positively weighted to keep harvested progeny successful for a variety of commodity based programs. This index targets producers that use Hereford bulls on Brahman influenced cows.

Certified Hereford Beef Index (CHBS)

The Certified Hereford Beef Index is a terminal sire index that is built on a production system where Hereford bulls are mated to mature commercial Angus cows where all progeny will be targeted for Certified Hereford Beef after the finishing phase. This index has significant weight on Carcass Weight and Marbling to ensure profit on the rail. As well there is a positive weighting for Average Daily Gain along with a negative weighting on Dry Matter Intake to ensure efficient pounds of growth in the finishing phase. In addition, there is a positive weighting for Rib-eye Area and a negative weighting for Back Fat to maintain desirable Yield Grades. This is the only index that has no emphasis on fertility. Remember that no replacement heifers are being retained.

How To PARTICIPATE

As an Absentee Buyer

BID FROM ANYWHERE

with

- 1. VISIT LIVE-AG.COM**
Navigate to the **"Purebred"** tab, located in the main menu. Select the auction of choice.
- 2. LOG-IN / CREATE AN ACCOUNT**
Select the **"Login or Create an Account"** button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the **"Register"** button. An account is not necessary to watch an auction.
- 3. REGISTER TO BID**
Once logged in, find your sale of choice and click **"Register to Bid."** Agree to the terms and conditions, and click the **"Register"** button. Your request will be approved in a timely manner.

* CALL OUR TEAM WITH ANY QUESTIONS

We're dedicated to ensuring you have a positive bidding experience. Please call **817-533-6699** with any questions.

THE W4 RANCH BULL DEVELOPOMENT

Our Bull Development Center is 100 acres that is divided into five paddocks with a 200 feet tall rock hill in the center.

After preconditioning, these bulls are divided by age groups and walked to the paddocks.

On one side of the hill is their water and on the opposite side, their feed source.

The distance is a half mile each way and requires climbing the rock hill. This procedure strengthens hocks and feet as well as builds muscle.

Bulls raised in this environment will work anywhere and gain as they are working.

- ✓ Bulls weaned, vaccinated and wormed at 205 days.
- ✓ Bulls conditioned on starter ration for 21 days and then transitioned to a high roughage ration for the remainder of the feed period.
- ✓ Bulls raised on high roughage ration.
- ✓ Bulls weaning and yearling weights are adjusted.

104M leads off the trio of Red Cloud sons in this offering, and his numbers demand attention. His EPD profile is exceptional, ranking in the top 1% of the breed for BMI\$, BII\$, and Milk. No matter the color of your cow herd, 104M is the kind that will sire calves that perform in the feedlot and daughters that earn their place in the replacement pen. His proven dam, F552, has already produced two high-selling bulls in our last two sales, further proving the strength of this cow family.

108M is a Homozygous Polled Red Cloud son with a tremendous future ahead of him. His dam, 6120, has been an outstanding producer in our program and is a true cornerstone of our polled Hereford cow family, consistently generating topend bulls and replacement females. Dark red, big bodied, and powerful in his build, 108M combines eye appeal with the pedigree and maternal strength serious cattlemen value. Be sure to give this bull a close look on sale day.

Lot 2 | W4 0376 RED CLOUD 108M ET

Selling 3/4 interest and full possession.

To say we are excited about this Homozygous Polled brother to Lot 2 would be an understatement. He is one of the most complete polled bulls we have raised—balanced, powerful, and built with the kind of muscle and pigment that demand attention. Smooth made and structurally sound, he also offers calving ease potential without sacrificing performance. Backed by the tremendous 6120D donor cow, this bull represents elite genetics from top to bottom.

This impressive son of Sherman 2157K traces back to elite maternal genetics as a direct son of 770E, the dam of the Genex sire Churchill W4 Roughneck. Dark red, smooth made, and built for calving ease, he offers strong CE Direct numbers along with a high CHB\$ index. With pedigree strength, performance potential, and genomically backed data, this bull brings together power, predictability, and profitability in one attractive package.

IS YOUR AGENT A LIVESTOCK SPECIALIST?

WE KNOW LIVESTOCK INSURANCE BECAUSE WE SPECIALIZE IN IT.

Our livestock insurance solutions are tailored to meet the unique needs of your operation, ensuring you are protected against unexpected events.

ANNUAL FORAGE

Protects forage plants grown for livestock feed against lack of rainfall, offering coverage that secures your feed supply through unpredictable weather conditions.

LIVESTOCK RISK PROTECTION (LRP)

Aids in managing price risk by providing coverage against market price downturns.

ANIMAL MORTALITY

Provides coverage for death, or humane destruction of a covered animal as a result of an accident, injury, illness, disease and/or disability occurring during the policy period.

PASTURE, RANGELAND, FORAGE (PRF)

A rainfall index program designed to provide coverage for losses of forage for grazing or harvested for hay.

PROPERTY & CASUALTY

Coverage for homes, buildings, equipment, livestock, crops, liability, and workers' compensation.

TO LEARN MORE, CONTACT
STEVE RUSSELL AT
(903) 573-0481 OR

THANK YOU

Your trust is important to us!

We hold two sales a year and have for many years.

We fully guarantee the cattle and want your W4 buying experience to be pleasant at every step and profitable for your operation. Thank you for your trust in W4 genetics.

We will hold a Fall Production Sale, follow our social media pages/website for more information.

★
